

AUDIO AND VIDEO ELEMENTS ON WEB.

First Part:

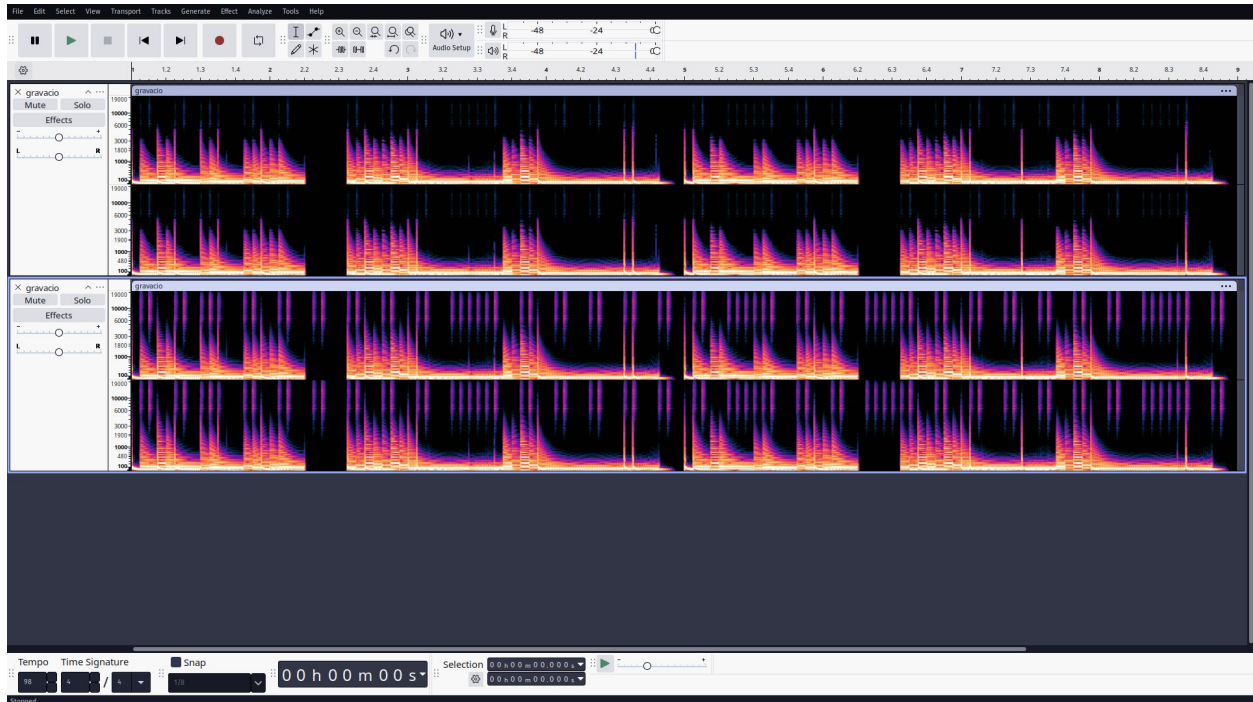

Low resolution:

High resolution

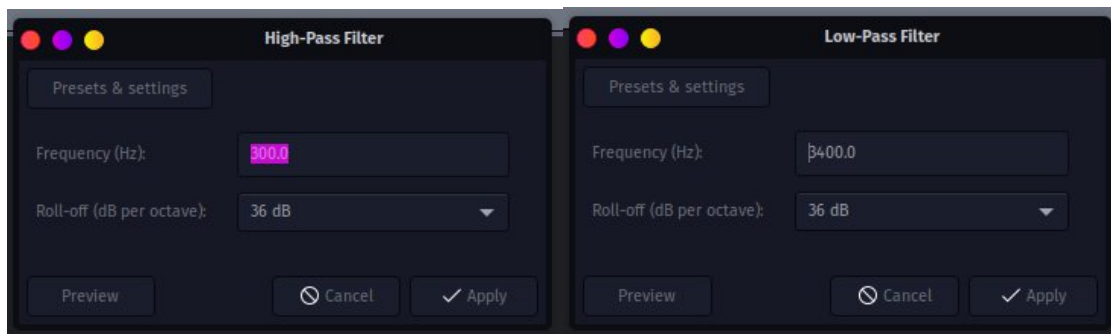

Second Part:

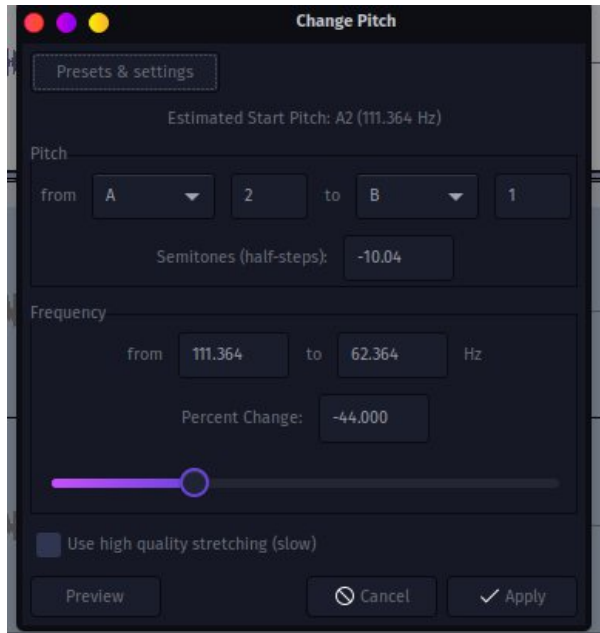

The image above shows the two audios side by side where u can easily see that the one above has the noise reduction with it and the one below has no effect in it.

Third Part:

3.1

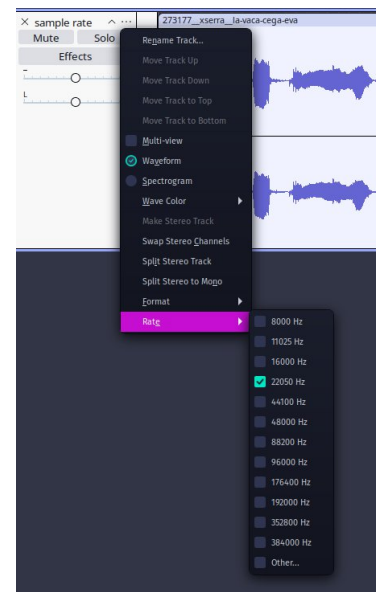

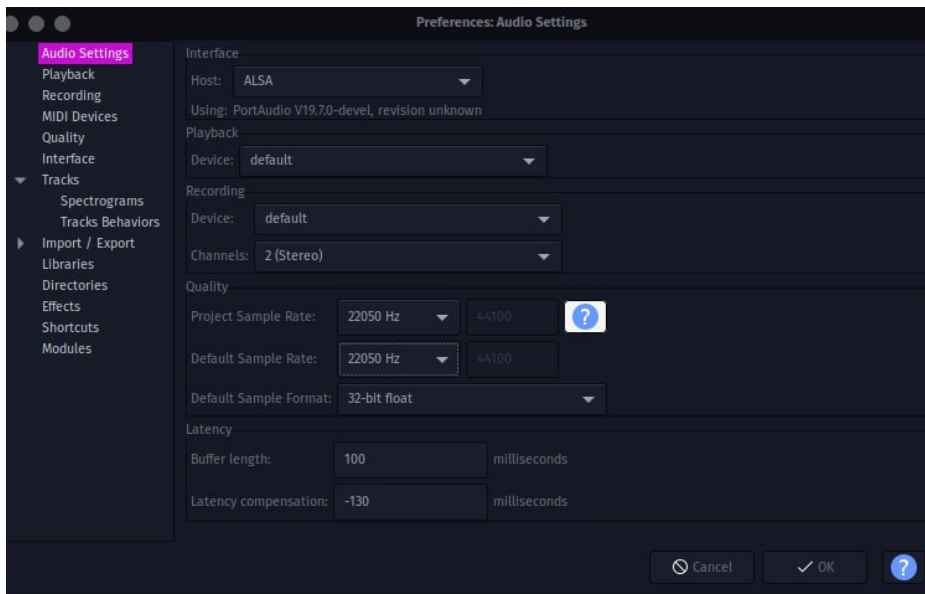

3.2

3.3

It seems like when you do this it lowers the pitch and makes is slower

3.4
